Right now, you can only get Paul's new DVD/CD from GMT. Eventually it will be available in the retail stores, but for now, "You can only get it here!".

Dare to be bold and you'll find the gold.  
(MY REPLY TO THIS)

You, know actually its not available just on GMT!. Everyone has avoided answering me when I post concerns about this. I just found it on amazon.com. EXACTLY THE SAME ALBUM. IF GMT IS PAWNING THIS AS ITS OWN, THEN WE ARE BEING DECEIVED. IF YOU DO NOT BELIEVE ME CHECK THIS LINK.

this post will surely be deleted when they see it. I just hope it get through to people 😡 These people make me SICK!!!!

Baby Boomers are gonna luvvvvvv this DVD/CD!

We literally grew UP with the Beatles.....lord - I STILL know the lyrics (most) of Penny Lane, etc.

And most any generation knows the ending to "Hey Jude" .....it's just One of Those Songs.

I'm 53, the guy who works with me is 20. I asked him if his dad likes the Beatles? Like who says no if they're our age. I told him the songs listed on OUR McCartney album....and he bought one for Father's Day.

I don't know WHY McCartney's album wasn't pre-advertised to us with his Beatles songs! This is just soooooo much better! Well, at least to Old Beatles fans.

And who isn't, eh?

I just found out that this DVD & CD is the 93 World Tour. I went to his site to find out if they were the same songs. They are; even in the same order. I have to admit I am a tad disappointed; not so much that its not new stuff, but that gmt did not inform us that this CD was from 1993.

An explanation would be nice. Wonder if I just put my head on the chopping block?

I've also found the same thing. I'm sure I'll probably be banned for pointing it out in another post. If its already out there, then the associates should be told. I've waited a very long time for GMT to fulfill the promises made to me as a distributor, it hasn't happened.

It's funny. I just looked at Paul McCartney's picture on the GMT website and knew right away, as any Beatles fan would, that it was an old DVD. It took less than five minutes online to find out the truth about it. I had just received (hand-delivered!) a six-point "rebuttal" of a report I'd written to warn people around here (Olympia, WA) about GMT. One of the key points in the rebuttal had to do with all of the famous people who are supposedly associated with GMT, like Paul McCartney.

The man who wrote the rebuttal publicly accused me of slander for saying that the activities of GMT and their associates were predatory and illegal. His document was distributed to an unknown number of people in his and his recruiter's downline. So, I emailed him back and noted that his characterization of the McCartney DVD as "exclusive to GMT", "never before released", and "Paul's most recent" was completely erroneous. I further suggested that if was an honest fellow he would send out a correction immediately to all of the people he sent his rebuttal to and asked for a copy when he did.

Well you can probably guess what happened. He drove all the way downtown just to find me and tell me how upset he was by my "negativity" and to demand that I never e-mail him again. I told him that I'd be really happy to never e-mail him again. I'd be happy never to run into him again either. I've lost a lot of respect for the guy.

I'm learning a lot about how people act when they are heavily invested in an irrational idea. Mostly they get really angry. This particular character has recruited his brother, a bunch of other family members and some of his best friends. I think some of them are going to be very angry with him in a few months.

Nevertheless, I'm going to keep telling the truth around here because I'm also seen how hurt good honest people are by learning the truth about GMT.

So where exactly is all this info you are posting Fred. When I try to get into this OSU I can't. Is there some secret to it. I thought you have to be a member? I'm not, so I don't know how to get in to read this stuff you guys are talking about. Tell me how, so I can see this with my own eyes. I have a sister in law that keeps telling me to get into gmt! I'd like to know more! I've known about the WWSN for some time, but seeing is believing. So, since you can get in and post the OSU stuff it must mean you are a member Fred, either that or you have a secret pass key.... how about sharing a way in, so we can all have fun.

Hi Pinkpanther,

Since I've been canned from OSU, I guess just sign up at their site. I can't get in any longer either, guess I said too much. Don't worry, the moderators said "I will be dealt with"

I'm sure your sister-in-law would lend you her ID as a potential buyer or tell you if you can gain access another way. I understood GMT was free to join.

I got in using a random 9 digit id number, with 1 as the first digit and under 555,000 for the last 6, as there are at least that many suckers, er, distributors. so it should look something like this: 1005\*\*\*\*\*. I had to use a valid email addy to get confirmed.
